

Heart Rate Monitor

Calorie Counter

Digital Watch

SmartHealth's Digital Heart Rate Watch combines sleek styling and easy-to-use functions to deliver a simple, yet powerful fitness tool for improving health and wellness.

The patented **S-Pulse™ Heart Rate Technology** provides precise EKG accurate heart rate readings at the touch of the convenient stainless steel sensor button.

The high-contrast, large-character LCD display is very easy to read, for eyes both 'young and old', across all the functions in this watch.

Calorie Burn is coupled with a convenient exercise timer to easily manage weight loss efforts and exercise duration. The alarm is easy to set as a daily alarm clock or reminder, and the chronograph provides accurate timing of walks, exercise periods, or any other event where a 'stop watch' function can be used.

Model: SMH11080 Size: Unisex
