SmartHealth's Digital Pedometer Heart Rate Watch combines sleek styling and easy-to-use functions to deliver a powerful fitness and activity management tool for improving health and wellness.

The patented **S-Pulse™ Heart Rate Technology** provides precise EKG accurate heart rate readings at the touch of the convenient stainless steel sensor buttons.

The **Pedometer** function, powered by a built-in Digital Accelerometer chip, can be activated during walks to provide users with measurable results for step count, distance, and speed.

Calorie Burn is calculated during walks and along with the convenient exercise timer and count-down timer, weight loss efforts and exercise duration are easily managed.
